News 8 new results for Hydraulic Fracturing

[MEAD: Hydro-fracking regulations should be left to states](#)  
[Washington Times](#)  
 From hydraulic-fracturing rules to air-quality strategies, Wyoming leads in developing solutions that work for people and the future, without compromise on clean air, wildlife, land or water. Those of us who call Wyoming home only want to make the ...

Fracking Looms Large for Cuomo '16

NBC New York

"Literally every state where there's a well in the ground pulling oil or gas out, 90 percent of them are using hydraulic fracturing," said Benjamin Cole, spokesman for American Energy Alliance, noting wells in Michigan, Ohio, Pennsylvania and ...

Oil Company Loses Radioactive Tool; Could be Dangerous to Humans

DailyTech

Halliburton recently announced that it lost a 7-inch radioactive cylinder that is used for hydraulic fracturing. Hydraulic fracturing is a process where oil and gas companies insert water and other components underground to break up subterranean ...

South Africa lifts fracturing moratorium; no permits imminent

Oil & Gas Journal

Last year, South Africa's minerals department imposed a temporary moratorium on hydraulic fracturing while it studied the possible effects on groundwater (OGJ Online, Apr. 22, 2011). The moratorium was lifted on Sept. 7. The US Energy Information ...
